

Datamars Livestock

Datamars Livestock turns your weigh session data into clear, useful information to help you monitor your animal's weight gains, track their performance to target weights and identify top and bottom performers via simple graphs and charts.

- ✓ **Monitor your animal's weight gains by groups, sessions, or individually to track their performance to target weights.**
- ✓ **Instantly share weighing data with your staff, vet or farm consultant.**
- ✓ **Seamlessly transfer data directly from your Datamars Livestock device**, or via the Data Link smartphone and PC apps.**
- ✓ **Log in from any device with an internet connection.**
- ✓ **Back-up your sessions in the cloud. If your computer or Datamars Livestock device is lost or stolen, your files are safe.**
- ✓ **Receive notifications and updates to help you keep your device software up-to-date.**
- ✓ **Built-in support features to help if you need it.**
- ✓ **Suitable for sheep, beef, deer and dairy young stock.**
